

Dear neighbor,

It's that time of year again! We are gearing up for Literature Alive, 2023! As we approach our 11th year of Literature Alive, we are pleased to recap what this program has brought to our community:

These are big numbers making a difference in the lives of our young community members who are just beginning to read. The Literature Alive Program has inspired thousands of children through the magic of live theatre, and continues to bring outstanding programming to Concho Valley children at no charge to the families who attend.

In addition, we also provide exposure to the performing arts, as many of the children who attend have never seen a live theatrical performance. Although we have children from all socioeconomic backgrounds, our highest attendance and biggest focus are families in the lower income bracket. Low income families have less financial means to purchase tickets to live performance events such as theatre and dance. Studies continue to show exposure to the performing arts is extremely important in development, and we are proud to produce such an enriching and exciting event each year.

I am thrilled to introduce you to this year's Literature Alive as we celebrate different cultures and unique methods of storytelling. We appreciate your consideration for a 2023 sponsorship.
